LINES ON A SKELETON.

This poem appeared in the London *Morning Chronicle* just forty years ago. A reward of fifty guineas failed to bring out its authorship, nor is it yet known:

Behold this ruin! 'Twas a skull,
Once of ethereal spirit full.
This narrow cell was Life's retreat,
This space was Thought's misterious seat.
What beautious visions filled this spot,
What dreams of pleasure, long forgot.
Nor Hope, nor Love, nor Joy, nor Fear,
Have left one trace of record here.

Beneath this mouldering canopy
Once shown the bright and busy eye;
But start not at the dismal void—
If social Love that eye employed;
If with no lawless fire it gleamed,
But though the dews of kindness beamed,
That eye shall be forever bright,
When stars and suns are sunk in Night.

Within this hollow cavern hung
The ready, swift, and tuneful tongue.
If Falsehood's honey it disdained,
And where it could not praise, was chained;
If bold in Virtue's cause it spoke,
Yet gentle Concord never broke!
This silent Tongue shall plead for thee
When Time unvails Eternity.

Say, did these fingers delve the mine?
Or with its envied rubies shine?
To hew the rock, or wear the gem,
Can little now avail to them.
But if the page of Truth they sought,
Or comfort to the mourner brought,
These hands a richer meed shall claim
Than all that wait on Wealth or Fame.

Avails it, whether bare or shod,
These feet the path of Duty trod?
If from the bowers of Ease they fled,
To seek Affliction's humble shed,
If Grandure's guilty bribe they spurned,
And home to virtue's cot returned,
These feet with angels' wings shall vie,
And tread the palace of the sky.

Agricultural.

From the American Agriculturalist.

Calendar of Operations for Nov. 1860.

FARM.—It is necessary that what now remains to be done in securing late crops, be finished quickly; frost and snow will soon take full possession of the fields, to act their important part in ameliorating the soil and preparing it for future tillage. If the cultivator has controlled the growth on his fields, allowing no weedy intruders to ripen their seeds, he has little to fear from the sweeping winds—if otherwise, every blast will send hundreds and thousands of these, his enemies, flying to their safe winter quarters, to emerge in Spring, ready to dispute with his crops for the mastery of the soil

In addition to completing preparations for Winter—making every thing comfortable for the family in the house, and the family at the barn—drawing and composting muck, finishing drains, threshing and marketing grain, etc, will afford profitable employment. The present leisure from more pressing work may be turned to great profit in reading, study of the *science* of farming, and planning for future improvement.

Buildings—Examine after hard storms, and keep in thorough repair. Painting may yet be done better than in Spring or Summer.

Cattle—Feeding at the barn is now necessary. A great saving of food, and much benefit to the manure heap, is secured by cutting and cooking food. Stalks and other coarse feed so treated, will be readily eaten up clean. Feed from racks or boxes, and give variety as well as plenty of food.

Cisterns and Wells—Arrange pumps and other fixtures so as to prevent freezing.

Corn—Complete husking, if not already done. Shell and market as soon as favorable prices are offered. Guard against depredations of rats and mice. Save stalks, leaves, and husks for fodder.

Draining can be done until frost prevents.—Keep sluice-ways upon the highway open, and occasionally examine drain furrows among Winter grain.

Fruit—Remove apples and pears to the cellar before they are frozen. It is important that they be kept dry and cool, and secure from rats and mice. Hanging shelves are convenient for ripening choice late pears.

Grain—Select the best growth for seed, if not attend to before. Thresh as fast as practicable. Allow no straw to be wasted; use it cut and mixed with meal for feeding, and for litter in the stalls and yards.

Hedges—Plant deciduous, be if the soil ; otherwise leave until Spring.

Ice Houses may yet be constructed if unsupplied. Have them in readiness to be filled at the first favorable opportunity.

In-door—Cultivate the mind during the leisure of the season.

Leaves are useful for bedding, for manure, and for protecting plants.

Plow heavy clay lands intended for cultivation next Spring, and leave the furrows to be harrowed by the Winter frosts.

Pumpkins—Continue to feed to fattening animals and to milch cows. If there be a large supply, store where they will be safe from frost until used.

Stacks—It is wasteful of hay and manure to feed from the stack upon the surrounding grounds. Draw it to the barn and feed out under cover.

Sorghum Sugar Cane—Complete cutting and manufacturing. It may be kept under cover several weeks without injury—moderate freezing, after cutting, does not spoil it.

Turnips and Carrots—Harvest any remaining. Store in the cellar or in pits, with sufficient protection from frost.

Water Pipes—Cover with straw or other proper material where there is danger of freezing.

Winter Grain—Keep all animals from the fields; the roots need the late growth for Winter protection. Let no water stand on any part of the surface.

ORCHARD AND NURSERY. Apples. Plant new orchards, and to fill vacancies in the old. Many unoccupied corners about the buildings and along lanes can be profitably used for fruit trees.

Cherry trees planted in the Fall in this latitude are liable to be killed by frost. Further South, the present time is favorable.

Cider—Finish making before the apples decay or are injured by freezing.

Cions—Cut at any time this month, when not frozen, and bury in dry earth, either out doors or in the cellar.

Fruit—Gather any remaining. Preserve in a cool, dark, and dry place. The cooler fruit can be kept without freezing, the longer it will remain sound. Separate bruised or decaying apples or pears from the general stock, to be used first.

Insects—Give the borer and scale no quarter. Examine twigs for eggs of the caterpillar.

Manure—Top dress orchards and fruit yards with compost, to protect the roots and enrich the soil.

Mice—Where these or other vermin are troublesome, wrap the lower ends of the trunks with thick tarred paper. Allow no hedge-rows near the trees.

Nursery Rows—When transplanting is completed for the season, plow between them, and turn the furrows toward the trees to protect them, and give good surface drainage. If possible, transplant all seedlings this Fall.

Pruning is better performed now than in Spring. August is probably the best season for this work, except in warm climates; there, the present month is favorable.

Quinces—Gather and market, or preserve the fruit as it ripens.

Seeds of Apples, Pears, Quinces, Plums, Cherries, Peaches, and the various nuts and hard shelled seeds—plant, if not already done as directed last month.

KITCHEN AND FRUIT GARDEN.—Asparagus: New beds may be made, and roots set or seed sown. Cover the beds, with several inches of coarse manure.

Beets. Complete harvesting, before hard frosts. Feed the tops to cattle or pigs.

Blackberry plants may be set while the ground remains open; it is better to put them in earlier.

Carrots: Dig and store the remaining crops.

Celery: Continue to earth up, in dry weather. Stand it upright on level ground and cover with earth. Allow no earth to fall between the stalks.

Grape Vines: Plant roots and layers Prune and preserve the cuttings in boxes of earth for planting next year. Take vines from the trellis, and cover them with straw or earth.

Onions: Cover with litter those left in the ground during Winter.

Rhubarb: Set roots and crowns. Cover with coarse stable manure, to protect the roots and enrich the soil.

PATERNAL ADVICE.

They tell a very good story at the expense of a rich merchant of Marseilles and a very clever young man, a clerk of his, who secretly had fallen in love with the old man's daughter, but without any chance of winning her, as he thought. The old gentlemen noticed that he was growing pale and thin, and began to question him as to the reason.

'It is some love affair, I fancy.'

'I give you my word, sir.'

'Tut, tut,' said the old man. 'I have an eye in my head—I can see through a millstone as far as any man. Besides, your blushes betray you, my boy. 'Well, well, boys will be boys.'

'What, sir!' exclaimed the agitated clerk, 'do you know—'

'Do I know? why, its the old story. She is the fairest of the fair, etc., and you are afraid to ask her hand in marriage.'

'I dare not, sir.'

'Yes I understand; rich father, proud as Lucifer, and all that sort of thing. But you're wide awake, eh? You know what to do.—Perhaps I'll help you, for I can't afford to lose your services, and you're pining to a shadow. It'll take money; but as far as a couple of thousand goes, my boy, I'm your man. And he slapped the young fellow on the back in a very encouraging manner. 'I tell you,' he added, 'I was as poor as a church mouse myself when I began life.'

'I thank you, sir, but your kindness is thrown away. She I love is far above me.'

'I dare say; but in my time, young fellows were not cast down for a trifle. In my day, when there was a crusty old fellow in the way, we summoned him to surrender. If he was obstinate, we ran away with the girl—a coach and four, and no stopping place short of Hymen.'

For many days the same conversation was renewed under different forms. The young man could not make up his mind to speak out, for his employer was a terrible old fellow, proud as Lucifer, and thought his daughter a match for an emperor. To declare himself, would be to be kicked out of doors incontinently. But the advice to carry off the young lady, persisted in day by day, began to produce an effect on the young quill driver's mind.

'Sir,' said he to his patron, one fine day, 'I can't hold out any longer; I've a great mind to follow your advice.'

'Bravo!' spoken like a lad of spirit. I'll get another clerk to do your work, and you may make your honeymoon as long as you like.

'My dear fellow, I'm rejoiced to see you acting like a man. You marry the girl and her old booby of a father will come around fast enough, I'll warrant you. I wish you all the happiness in the world. But, by the way, how are you off for money?'

'I have saved up a little something, sir.'

'Pooh, pooh, what are your savings? a mere pinch on a journey. Here, my boy, here's a thousand crowns; you're heartily welcome to them. Have you engaged a carriage?'

'I thought of taking the railroad.'

'Pshaw! you'll spoil everything. How absurd it would be to use a public conveyance, with a thousand eyes on you. You'll be company enough for each other. You shall have my carryall.'

'A thousand thanks, sir.'

So the clerk took his master's carriage, money and daughter. When the old man found out who was the bride, of course he stormed, and raved, and used bad language, as old gentlemen are apt to do in a passion; but as it was all his own doing, he finally came round, and his son-in-law is now a partner in the house.

DEWDROPS.

Liberality is the best way to gain affection, for we are assured of their friendship to whom we are obliged.

The greater the man is, the more he hath need of a friend; and the more difficulty there is in finding and knowing him.

Worthy minds deny themselves many advantages to satisfy a generous beneficence, which they bear friends in distress.

Inquisitive people are the funnels of conversation; they do not take in anything for their own use, but merely to pass it to another.

Choose thy wife wisely; open not thy bosom to the trifler; repose not thy head on the breast which nurseth envy, and folly and vanity.

More hearts pine away in secret anguish for unkindness from those who should be their comforters, than for any other calamity in life.

He who would bring home the wealth of the Indies, must carry the wealth of the Indies with him. So it is in traveling; a man must carry knowledge with him, if he would bring home knowledge.

If a man could be conscious of all that is said of him in his absence, he would probably become a very modest man indeed.

If you have great talents, industry will improve them; if moderate abilities, industry will supply them. Nothing is denied to well directed labor; nothing is ever to be attained without it. Remember, a man's genius is always in the beginning of life as much unknown to himself as others—and it is only after frequent trials, attended with success, that he dares think himself equal to the undertakings in which those who have succeeded, have fixed the admiration of all mankind.

There is such a tremendous crop of oats in Cumberland county, Illinois, that they are selling them for ten cents a bushel.

MRS. CAUDLE REDIVIVUS.

AN AMUSING CURTAIN LECTURE.

"Been out all night again. I'd like to know where you keep yourself till this time in the morning. It's not ten minutes since I heard the clock strike four. You didn't hear it?—No, of course you didn't. You wouldn't hear the last trump—the noise would have to travel through an acre or two of German beer before it would get to your hearing. Had to go among your German friends? Had to go?—I'd like to know how you had to go? Some folks are dreadful willing to "had to go."—Yes, I know it's coming on election times; that's a good excuse to get away from your family and home. I wish there was no election in the whole country—it would be much better off if it hadn't any. What did you do all night long? Who did you elect? Who did you see? Theatre and dance? Now, turn over here. Oh! Lord, am I in a hopyard or distillery, or where am I? What have you got outside of you? Didn't drink too much. You must have got into a beer barrel, then, for it's coming out all over you, and how it smells. You danced, eh? You must have cut a pretty figure; guess it was a larger reel. Do you think I'll stand this going off to a dance all night? Who did you dance with? I'll bet she was as homely as a pumpkin with two holes in it. Look here, you needn't pretend to sleep; I want to have a little domestic conversation with you. I am your better half, and your better-half proposes to discuss matters a little? Late? How do you know it's late? It's early enough to give you a piece of woman's tongue. Tonguey! Yes, I am tonguey; that's part of a woman's prerogative, and I am going to use some of it on you.—Let you alone? Did you say that to the girl you danced with? Oh, no! nothing of the sort; it was, "Miss, shall I have the pleasure of your beautiful person for the next cotillion!" I wish I could see her; I'd take the beautiful out of her with a jerk. Can get no peace?—Yes, can get plenty of it—go to the theatre; go electioneering; dance with the Dutch girls till morning, and come home and I'll give you peace by the long measure—I'll give you peace of my mind. Come back here; where are you going? Get into another bed? Not exactly; it has been large enough heretofore, and has not grown any smaller lately. You danced, did you? I'd like to see you dance with me. I'm too old, I suppose. I ain't too old to give you fits." [Here the lager-loving husband began to snore, when Mrs. Caudle subsided.]

THE WALL OF CHINA.

This stupendous monument of human art and industry exceeds everything that we read of in ancient or modern history. The pyramids of Egypt are little when compared with a wall which is conducted over high mountains some of which rise to the height of five thousand two hundred and twenty-five feet, across the deepest vales, over wide rivers by means of arches, and in many parts is doubled or trebled, to command important passes; at the distance of almost every hundred yards is a tower of massy bastion. The extent is computed at fifteen hundred miles, and is of such enormous thickness that six horsemen may ride abreast upon it.

Sr George Staunton, who accompanied Lord Macartney in his embassy to China, considers this great barrier to have been erected at last two thousand years. Du Halde also says this prodigious work was constructed two hundred and fifteen years before the birth of Christ, by the orders of the first emperor of the family of Tsin, to protect three large provinces from the irruptions of the Tartars. One-third part of the able bodied men of China were employed in constructing this wall, and the workmen were ordered, under pain of death, to place the material of which it is composed so closely together, that the least entrance might not be left for any instrument of pointed iron. The labor in its construction must have been immense, as the material must have been carried over a desert country to eminences inaccessible to horses or carriages.—The wonder of the world was completed in the short space of five years, and it is reported that the laborers stood so close for many miles, that they could hand the materials from one to another.

INTERESTING SPECULATION.—In the year 115 the late Elkanah Watson, as appears in "Men and Times of the Revolution," page 522 2d Ed.—made and published the following estimate of the probable population of the U. States for a long series of years. The actual result thus far show a singular approximation to the calculation. He calculated that the population would be:

In 1820—	9,625,734	actual result	9,636,151
In 1830—	12,833,645	"	12 866,020

In 1850—	23,185,368	"	23,191,876
In 1860—	31,753,854		
In 1870—	42 328,432

STORY OF AN OLD SETTLER.

The snows of many winters have left their whiteness upon my head, but many events in the war are still fresh in my memory. During the Long and bloody struggle for independence, I was compelled to witness many horrors.

My father was one of the early settlers of the Kenebec. I was the oldest of four sons. Before the commencement of the war, my father had built him a cabin quite comfortable for his purpose, and commenced clearing—converting the savage wilderness into a garden, to teem with corn and grain.

I and my brothers of course assisted him in his labors. The war broke out the second year after our settlement on the Kenebec. At first we apprehended but little danger from the savages as they hitherto manifested a friendly disposition. But we were soon conscious of the danger. The Indians commenced their depredations upon the white settlers.

Tales of blood were daily borne to our ears. We went to our daily labor with our weapons in our hands. At the close of a summer day we were seated in our comfortable cabin as usual. A knocking was heard at the door.—My mother turned pale and looked at my father as if entreating him not to open it until he was certain who was without. I immediately acted upon this hint, and stepping softly to the entry, was enabled to reconnoitre the premises through a small crevice. My mother's fears were not without foundation.—An athletic savage stood at the door. His face was painted in the most hideous manner. Instead of undoing the fastenings, I proceeded to add to their strength. I reported the discovery I had made.

"But one, did you say?" said my father.

"Only one," I replied.

"Now see what you can discover off the other side of the cabin."

I did so, and to my surprise saw three more of the rascals couched like serpents in the grass. I reported this also.

The knocking continued until it became furious. My father of course turned a deaf ear to his entreaties for admission. Finding that artifice would not answer, he was joined by his companions, and together made a furious attack upon the door. In truth we were but little alarmed for there were but four savages, and we felt able to contend with them. We knew that none suspected the male members of the family had not yet retured from work; consequently that they had only to deal with females. The savages now brought a large stick of wood, and with their united strength used it as a battering ram. The plan promised to be successful. The door began to yield.

In the cabin were three loaded muskets, and they were already in hands skilled in their use. We knew a disagreeable surprise was in store for our foes, and this gave us strength and courage. The door yielded and they rushed in. Poor fellows it was the last rush that three of them made, for they fell dead upon the threshold beneath our well directed fire. The fourth one fled in consternation. We pursued him far into the forest, but he was swift of foot and baffled pursuit.

"He will bring down more of the red fiends on us," said my father, wiping the perspiration from his brow.

Indeed the escape of the Indian was unfortunate. After this we kept in continual alarm. We were fired at in the fields by unseen foes, and were obliged to take the greatest precaution to guard against surprise all night. One of the Indians slain was a brother of him who was so furtunate as to escape, and we knew that to avenge his death would henceforth be the great object of his life.

Once we were attacked in the middle of the night but after a hard fight we succeeded in driving them away with the loss of several of their number. Finding our position growing more critical every day we began to think about leaving our solitary cabin, and seeking some white settlement.

Before our dwelling was the stump of a tree which had been broken off by a strong wind about four feet from the ground. This stump was hollow. One morning as my father opened the door to go to work, I heard the report of a gun, and almost immediately another, while simultaneously with the first report a ball struck the chimney near me. I ran to the door."

"Go look into that hollow stump said my father."

I did so, and to my astonishment saw an Indian in the agonies of death. I recognized him instantly as the one who made his escape. He had secreted himself there during the night, in order to shoot my father as he left the cabin. Fortunately his aim was bad and and the ball passed within an inch of his intended victim's head.

Before he had time to make his escape he had received the contents of my father's rifle. With our united strength we dragged him forth; and we now relinquished the idea of leaving our home, thinking that after this event we might live in comparative safety.

Soon after this I joined the ranks of my countrymen, encountered much hardship, and saw real service. It so happened, once upon a time, that I was sent out with a scouting party. In our zeal, we went so far that we were obliged to spend the night from camp. There was no dwelling near, and we were in the vincinity of our savage foes, whose cunning we had every reason to dred. We made arrangements to pass the night as follows:

We were in a small clearing, which had been made before the war broke out, and afterwards abandoned as untenable on account of the Indians. Near the middle of this trunk of a large tree which had been blown down, and whose roots had taken from the soil whereon they grew, an immense quantity of earth, I placed myself on one side of this rampart of earth, and my friend on the other, with the understanding that we should watch each other during the night.

By making a small opening through this natural fortification, I was enabled to thrust my gun through and watch the approach of an enemy towards my friend; and he, by a similar operation, could do the same favor for me.

The night was not very dark, and objects could be seen at a considerable distance. Having arranged matters in this manner, we felt but little apprehensions in regard to a surprise. The hours rolled on. I felt very sleepy, and was hardly able to keep my eyes open.

About midnight my attention was arrested by a bush which I did not recollect seeing in the early part of the night. At first I gave little heed to so slight a circumstance, but at length began to fancy that it came nearer, still I strove to persuade myself that the appearance was to be attributed to my eyes, rather than to reality. After watching for half an hour longer I could no longer doubt that the bush was in motion.

I waited with breathless anxiety until it was within gunshot, and then taking deliberate aim, I fired into the bush. It fell instantly, and I heard a heavy groan.

"What have you done?" said my companion.

"You will see in the morning," I replied.

We kept our position until sunrise, for fear of surprise. Upon examination we found the body of a stout Indian lying in a pool of coagulated blood under the bush. He had taken this method to reconnoitre. As it happened, it proved fatal to him and his purpose.

I have passed through many scenes, but I never shall forget the hollow stump and the moving bush.

ARKANSAS MODE OF ENJOYMENT.

The state of society in Arkansas was exceedingly rough several years since. We hope and believe it has improved latterly. The most frightful tragedies were enacted very frequently, and the people seemed to thing nothing of them. A dangerous cutting scrape was regarded as a rather comical affair than otherwise, as witness the following, which is substantially true.

Two desperadoes met at a tavern in Helena, one evening. They were named Tom Scroggs and Bill Pike. Says Scroggs:

'How's things?'

'Peart,' says Pike.

'Heard you said you'd bleed me next time we met,' says Scroggs.

'That's me,' said Pike.

And two bowie knives flashed fiercely.

The fellows had carved each other pretty briskly for ten or twelve minutes, when, as Pike's ears had been shaved off, and his abdomen been several times punctured, it suddenly occurred to him that he had enough of it, and he struck his colors.

'What's all this?' tremblingly inquired a stranger, who had entered just as the fight ended.

'Oh, it's of no account,' says the landlord, an ethereal creature of some two hundred and fifty pounds weight, and with a face of barn door proportions, 'taint nothin.' Some of the boys have been enjoyin' theirselves a little, that's all! Won't you histe a little pizen, stranger?' said the genial landlord, setting out a black bottle and a yellow bowl of brown sugar.

Curious country, that Arkansas, several years ago.

'Landlord,' said a commercial traveler, 'you do me too much honor—you let me sleep among the big bugs last night.'

'Oh, don't be too modest, my dear sir,' said the landlord; 'I doubt not they have your blood in their veins.'

A neighbor informs us that, coming home a few mornings since, I met a man attempting to walk on both sides of the street. By a skillful manœuvre I passed between him.

An Arkansas traveler says that he knew a young fellow down South who was so fond of a young woman that he rubbed off his nose kissing her shadow on the wall.

An Albany barber having a very intemperate man to shave on Sunday, begged him to keep his mouth shut, as it was a punishable offence to open a *rum hole* on the Sabbath.

"Now, then, hearties," said a gallant captain, "you have a tough battle before you. Fight like heroes till your powder's gone, then—run! I'm a little lame and I'll start now!"

LAY OR YELL.—Mrs Yell lately cowhided Mr. Lay for not performing a promise to marry her. As he wouldn't make her Lay, she made him *Yell*.

In the matter of plain speaking, we are like the soldier, who, in his first battle, was afraid to fire off his musket, lest he might hurt somebody.

A printer, on seeing a bailiff pursuing an unfortunate author, remarked that it was a new edition of the 'Pursuits of Literature unbound, and hot pressed.'

A cynical Frenchman once said there was two sides to a love affair—the party who loves, and the party who consents to be so treated.

The Michigan Farmer estimates the wheat crop of that State this year at 9,000,000 of bushels.

PAY UP! PAY UP!

The election is now over, and the Republicans have been successful. We have been at considerable expense during the campaign, and would like our debtors to *antie up*. The crops have been good, and they have no excuse for not paying us. For the last six or nine months we have not got in money enough to carry on our printing establishment and have had to run several hundred dollars in debt for doing so. Will not our subscribers now pay us? A great many owe us for advertising, particularly Estate printing. The approaching Court will afford many an opportunity to pay us, and we hope none of our friends will come to town without preparing themselves to settle with us, and those not coming will please send the amount of their indebtedness by a friend or by letter. We are in earnest in this matter.

THE PRESIDENTIAL ELECTION.

The election on Tuesday, throughout the country, was one of those sublime affairs which are scarcely understood in Europe, and amaze the whole world—the selection of the Chief Magistrate of a mighty nation of over 30,000,000 of people, without revolution or bloodshed. Sufficient is known for us to announce the fact that Abraham Lincoln and Hannibal Hamlin are elected President and Vice President. In their election, sectionalism and disunion are defeated, and the conservative feeling of the country has gloriously triumphed, and kept the election out of the House, by which the country would have been agitated till the 4th of March. That Mr. Lincoln will make an able and patriotic President, and respect the rights of all sections of the country, all hope and believe.

KIDNAPPER CAUGHT.

We stated in our last that a little colored girl, about six years old, daughter of George Love, had been kidnapped, about six miles south of this place in Cumberland Valley Township, on yesterday two weeks ago. It appears that a William Hemming of Cumberland Valley, took the child to the Cumberland Jail the next day, for safe keeping, stating to the Sheriff of Allegheny County, Md., that the mother of the child was a runaway, that the child was caught, and that the mother was expected to be caught also, in a short time, and that the owner would call for it. It is supposed that Hemming had a confederate who was to represent himself as the owner of the child. Hemming was arrested on last Friday in Cumberland, and is now in the Jail of that City awaiting a requisition of the Governor of Pennsylvania. He will doubtless get several years in Allegheny city.

Our friend, D. J. CHAPMAN, ESQ., of Philadelphia, has the thanks of our people generally, for keeping us posted up on Tuesday night and Wednesday morning, on the election news. One dispatch of his read thus: "While you have nothing else to do, I propose three cheers for the next President—Abraham Lincoln."—The cheers were given with a right good will, and three more for D. J. Chapman. Here's our ☞ over the result, D. J. C.

DUFF'S MERCANTILE COLLEGE, PITTSBURG.—The Senior Principal of this time-honored establishment is the author of Duff's System of Book-keeping, sanctioned by the American Institute and Chamber of Commerce of New York as the best in use. As a merchant, as an author, as an accountant and as an instructor, his lectures bring students over 1500 miles past numbers of other colleges. The Junior Principal is equally distinguished as a penman. Some of his contributions to our Fairs were new designs and remarkable performances. The Western Virginia, Western Pennsylvania and the Pennsylvania State Fairs awarded him eight first class premiums over all competitors, viz: For Business writing, Recording hand, Text hands, Ornamental lettering, Pen drawing and Card writing, proving his superiority in every branch of the penman's art.—*Pitts. VICTORY!

WE'LL FIDDLE THEM UP

SALT RIVER,

TO THE TUNE OF

100,000

IN PENNSYLVANIA!!

ABRAHAM LINCOLN is elected President, and HANNIBAL HAMLIN Vice President of the United States! Pennsylvania gives him from 75,000 to 100,000 majority. New York gives him about 50,000. Pennsylvania is undoubtedly the Banner State. The following States have all gone for Lincoln by large majorities: Pennsylvania, Connecticut, Illinois, Indiana, Iowa, Maine, Massachusetts, Michigan, Minnesota, New Hampshire, New York, Ohio, Rhode Island, Vermont, Wisconsin, and probably Oregon. Bell carries Virginia, Kentucky, Tennessee and Maryland. Douglas Missouri. Bedford County has given a majority for "HONEST OLD ABE," over all opposition, of at least 175!

HUZZA! HUZZA!!

LOST!

STRAYED away from the Bedford *Gazette* office, on the evening of the 6th inst., a large black and wite "*spotted*" Rooster, of the Locofoco specs. It is supposed that he has either taken refuge at Washington, with his former owner, Gen. G. W. Bowman, or that "that same old Coon" has made an end of him. Ay information concerning his whereabout, will be thankfully received.

DIED.

On Friday, the 22d inst., Mrs. CHARLOTTE S. WATSON, wife of Dr. W. H. Watson, of Bedford, in the 46th year of her age.

The deceased was for many years a member of the Presbyterian Church, and adorned her profession by a consistent christian life. Her piety was simple and unobtrusive, but deep-seated and earnest. She loved the sanctuary, and the ordinances of the Lord's House. Social, family and secret prayer, were highly prized as means of grace, and she honored the sacred word through which God sanctifies his people. Her favorite chapters in the gospels, and the Psalms which so truthfully portrayed her own experience, joyous and sad, will be, to her bereaved family, sacred mementoes of her trusting piety.

In social intercourse she was courteous and affable, and her conversation was characterized by great prudence, charity, and christian benevolence. Hence she was not only the light and joy of a happy home, but she stood high in the esteem and affections of all who knew her.

Her last moments were peaceful. She had a steadfast trust in Jesus, and confidingly committed her soul into his hands. As the morning sun was struggling through the clouds which gathered above her native hills, her sun of life went down, but only to rise in the unclouded splendor of an eternal day.

A large concourse of relatives and friends followed her remains to their last resting-place. The funeral services were held on the Sabbath morning after her decease, the morning of that day which commemorates the Savior's resurrection, and is a type of that rest which remaineth for the people of God. "I would not have you to be ignorant, brethren, concerning them which are a-sleep, that ye sorrow not, even as others which have no hope. For if we believe that Jesus died and rose again, even so them also which sleep in Jesus will God bring with him." COM.

On the 30th ult., in Bedford Tp., MARY E. BEEGLE, daughter of Samuel Beegle, aged 15 years, 5 months and 19 days.

SHRINER'S

BALSAMIC COUGH SYRUP,

For Coughs, Colds, Croup, Whooping Cough, Asthma, Bronchitis, [illegible] Pain and Weakness of the Breast, Difficulty of Breathing, &c.

From the Rev. Samuel Yingling.

BEDFORD, Nov 3, 1860.

MR. W. E. SHRINER—Dear Sir: Upon several occasions I have used your Balsamic Cough Syrup, in my family and also on one occasion myself—when worn by frequent preaching, and with the happiest results.

SAMUEL YINGLING.

BEDFORD Nov. 3, 1860

W. E. SHRINER—SIR: As you are about to introduce your Balsamic Cough Syrup into our County, I will give you my experience with it, which you are at liberty to use if you think proper, some two years ago a box that was lost on the Pennsylvania Central R. R. found its way to my store. I opened the box and found it to contain your Balsamic Cough Syrup. I had never heard of it at that time but a Mr. Aughinbaugh from your state happened to be present and said it was one of the best cough remedies in use and happening to need a cough medicine in my family I determined to give it a trial, and so well pleased was I with its effects that I gave bottles of it to my friends all of whom agree with me in pronouncing it the best cough remedy they have ever met with. We have used it for Coughs, Colds, Croup and Whooping Cough, and in every case it gave the most signal relief.—Yours truly,

ADAM FERGUSON.

I used in my family some of the Cough Syrup refered to by Mr. Ferguson, and fully concur in the opinion expressed by him.

WM. AGNEW.

We used Shriner's Balsamic Cough Syrup and consider it the best Cough Medicine we ever used.

SHRINER'S

MASTER OF PAIN.

THE GREAT EXTERNAL REMEDY,

For Sprains and Bruises, Burns and Scalds, Rheumatic and Neuralgic Pains, Swellings, Stiff Joints, Paralysis, or Numbness of the Limbs, Pains in the Breast, Side or Back, Sore Throat, Tooth-Ache, Frosted Feet, &c., &c., And for the Relief of Pain Anywhere and Everywhere.

This is a most perfect preparation, and seldom fails to do good. It is harmless in its effects but powerful to relieve *Pain*. If you use it once you will not likely be without it again. You will find it a constant household friend, giving ease and relief just when needed. Keep it constantly on hand and it will save you many hours of pain and suffering. There is hardly a pain it will not ease.—There is hardly an accident that will occur where it will not be useful.

Should one of your family get burned or scalded, cover the burned part with a cloth of several thicknesses wet with the "Master of Pain," and keep the cloth saturated with it. In a short time it will draw all the fire out. It will cause a prickling sensation—this is the fire coming out. Keep it wet with the "Master of Pain" until the pain and prickling ceases. Let the wet cloth stay on for six or eight hours, after which apply some healing ointment or sweet oil. In nearly all cases of Pain or Soreness of the Chest, Throat, Side, Back, Spine, Limbs or Joints, it will give relief.—Rub it on freely with the hand or with a flannel cloth until the skin becomes heated and burning.

For soreness of the throat rub it on until it produces a little soreness.

For Croup use it in connection with the Cough Syrup, by rubbing it on the chest.

For Rheumatism and all deep seated pains, if the pain is not speedily removed by rubbing with the hand, lay a cloth wet with the liquid over the part affected, and pass a warm smoothing iron over it.

For Pains in the Breast, Side or Back, the same may be done.

For Tooth-ache, drop it on cotton, and apply it to the nerve of the tooth, also rub the gums and cheeks with it.

For Frosted Feet, apply the "Master of Pain" freely, and dry it in before the fire.

For Head-ache rub it on the forehead.

It is called "Master of Pain." I did not give it this name—I don't like the name. When I first commenced making it it was without name or label. I made it and sold it by the ounce at my Drug Store. I had no idea then of making a business of it. Some who bought it called it Master of Pain, and by this name it became known for many miles round. And finally, when I had a label printed I was compelled to adopt the name, for by that name it was known. After all, the name is not so very inappropriate. It is used to alleviate or remove pain. It is put on wherever there is pain. Sometimes it will cause pain, but the result always is freedom from pain.

Reader—try it—take a bottle with you—use it whenever occasion requires—give it a fair trial.

Ayer's Sarsaparilla

A compound remedy, in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, so combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must prove of immense service to this large class of our afflicted fellow-citizens. How completely this compound will do it has been proven by experiment on many of the worst cases to be found of the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud. Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions, or sores; cleanse it when you find it is obstructed and sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation, of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it, contain but little of the virtue of Sarsaparilla, or any thing else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence, bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have ground for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. J. C. AYER & CO.

LINDSEY'S IMPROVED
BLOOD SEARCHER,
A STANDARD MEDICINE

For the speedy, radical, and effectual cure of ALL DISEASES arising from IMPURITY OF THE BLOOD.

This medicine has wrought the most miraculous cures in desperate cases of

Scrofula,	Cancerous formations
Cutaneous Diseases,	Erysipelas, Boils,
Pimples on the face,	Sore Eyes,
Old, Stubborn Ulcers,	Scald Head,
Tetter affections,	Rheumatic Disorders,
Dyspepsia,	Costiveness,
Jaundice,	Salt Rheum,
Mercurial Diseases,	General Debility,
Liver Complaint,	Loss of Appetite,
Low Spirits,	Foul Stomach.

Female Complaints, and all Diseases having their origin in an impure state of the Blood.

The above is a portrait of David McCreary, of Napier township, who, on the 31st day of August, 1858, made affidavit before Justice Gorley that he was treated for the cure of Cancer by three physicians of Bedford County, and by Dr. Newton of the Eclectic College in Cincinnati, for a period of nearly eight months, notwithstanding which, his *lip, nose, and a portion of his left cheek were entirely eaten away!* He had given up all hope, when he heard of the "Blood Searcher," and was induced to try it. Four bottles cured him, and although sadly disfigured, there is no question but what this invaluable medicine saved his life. The full particulars of this remarkable case may be seen in a circular, which can be had of any of the Agents.

We also refer to the case of Nancy Blakney, of Everton, Armstrong county, Pa., cured of Scrofula after being unable to get out of bed for three years.

To the case of a lady in Ansonville, Clearfield county, who was also afflicted with Scrofula in its worst form.

To the case of George Meisel, residing in Carrolltown, Cambria county, Pa., who was so badly afflicted with Cancer that it eat his entire nose off and his case was worse, if possible, than McCreary's.

The particulars of these cases—every one of which was cured by the use of the Blood Searcher—may also be found in a circular to be had of any of the Agents.

THE
ONLY PREPARATION
Having proofs so strong and direct as to
EXPEL THE DOUBTS
OF ALL.

For Statesmen, Judges, Editors, Physicians of the oldest schools as well as new, give it their unqualified sanction, and recommend it for all cases of eruptions, and diseases of the scalp and brain; but all who have used it, unite, in testifying that it will preserve the hair from being gray, and from falling to any age, as well as restore. Read the the following:—

Oak Grove, S. C. June 24, 1859.

PROF. O. J. WOOD: Dear Sir:—Your Hair Restorative is rapidly gaining popularity in this community. I have had occasion to lay prejudice aside, and give your Hair Restorative a perfect test:—

During the year 1854, I was so unfortunate as to be thrown from my sulky against a rock near the roadside, from which my head received a most terrible blow; causing a great deal of irritation, which communicated to the brain and external surface of the head, from the effects of which my hair was finally destroyed over the entire surface of the head. From the time I first discovered its dropping, however, up to the time of its total disappearance, I employed everything I could think of, being a professional man myself, and, as I thought, understanding the nature of the disease, but was finally defeated in every prescription advanced.

These and no other circumstances induced me to resort to your worthy Hair Restorative, which I have every reason to believe, produced a very happy result: two months after the first application, I had as beautiful a head of young hair as I ever saw, for which I certainly owe you my most sincere thanks. Rest assured, dear sir, I shall recommend your remedy to all inquirers; moreover, I shall use my influence, which I flatter myself to say, is not a little.

You can publish this if you think proper.

Yours, very respectfully.

M. J. WRIGHT, M. D.

Office of the Jeffersonian,
Philippi, Va., Dec. 12, 1858.

Dear Sir:—I feel it my duty as well as my pleasure, to state to you the following circumstance, which you can use as you think proper. A gentleman of this place, (a lawyer,) has been bald ever since his early youth, so much so, that he was compelled to wear a wig. He was induced to use a bottle of your "Hair Restorative," which he liked very much; and after using some two or three bottles his hair grew out quite luxuriantly, and he now has a handsome head of hair. The gentleman's name is Bradford, and as he is very well known in our adjoining counties, many persons can testify to the truth of this statement; I give it to you at the request of Mr. Bradford. You can sell a great deal of your Hair Restorative in this and the adjoining counties if you have the proper agents. Yours, &c.,

THOMPSON SURGHNOR.

DR. WOOD: Dear Sir: Permit me to express the obligations I am under for the entire restoration of my hair to its original color; about the time of my arrival in the United States it was rapidly becoming gray, but upon the application of your "Hair Restorative" it soon recovered its original hue. I consider your Restorative as a very wonderful invention, quite efficacious as well as agreeable.

S. THALBERG.

The Restorative is put up in bottles of three sizes, viz; large, medium and small holds ½ a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in porportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent more in proportion, and retails for three dollars per bottle.

HOSTETTER'S
STOMACH BITTERS.

IT is a fact that, at some period, every member of the human family is subject to disease or disturbance of the bodily functions; but, with the aid of a good tonic and the exercise of plain common sense, they may be able so to regulate the system as to secure permanent health. In order to accomplish this desired object, the true course to pursue is certainly that which will produce a natural state of things at the least hazard of vital strength and life. For this purpose, Dr. Hostetter has introduced to this country a preparation bearing his name, which is not a new medicine, but one that has been tried for years, giving satisfaction to all who have used it. The Bitters operate powerfully upon the stomach, bowels, and liver, restoring them to a healthy and vigorous action, and thus, by the simple process of strengthening nature, enable the system to triumph over disease.

For the cure of Dyspepsia, Indigestion, Nausea, Flatulency, Loss of Appetite, or any bilious Complaints, arising from a morbid inaction of the Stomach or Bowels, producing Cramps, Dysentery, Colic, Cholera Morbus, &c., these Bitters have no equal.

Diarrhœa, dysentery or flux, so generally contracted by new settlers, and caused principally by the change of water and diet, will be speedily regulated by a brief use of this preparation. Dyspepsia, a disease which is probably more prevalent, in all its various forms, than any other, and the cause of which may always be attributed to derangements of the digestive organs, can be cured without fail by using HOSTETTER'S STOMACH BITTERS, as per directions on the bottle. For this disease every physician will recommend Bitters of some kind; then why not use an article known to be infallible? All nations have their Bitters, as a preventive of disease and strengthener of the system in general; and among them all there is not to be found a more healthy people than the Germans, from whom this preparation emanated, based upon scientific experiments which have tended to prove the value of this great preparation in the scale of medical science.

FEVER AND AGUE.—This trying and provoking disease, which fixes its relentless grasp on the body of man, reducing him to a mere shadow in a short time, and rendering him physically and mentally useless, can be driven from the body by the use of HOSTETTER'S RENOWNED BITTERS. Further, none of the above-stated diseases can be contracted, even in exposed situations, if the Bitters are used as per directions. And as they neither create nausea nor offend the palate, and render unnecessary any change of diet or interruption of ordinary pursuits, but promote sound sleep and healthy digestion, the complaint is removed as speedily as is consistent with the production of a thorough and permanent cure.

For Persons in Advanced Years, who are suffering from an enfeebled constitution and infirm body, these Bitters are invaluable as a restorative of strength and vigor, and need only be tried to be appreciated. And to a mother while nursing these Bitters are indispensable, especially where the mother's nourishment is inadequate to the demands of the child, consequently her strength must yield, and here it is where a good tonic, such as Hostetter's Stomach Bitters, is needed to impart temporary strength and vigor to the system. Ladies should by all means try this remedy for all cases of debility, and, before so doing, should ask their physician, who, if he is acquainted with the virtue of the Bitters, will recommend their use in all cases of weakness.

CAUTION.—We caution the public against using any of the many imitations or counterfeits, but ask for HOSTETTER'S CELEBRATED STOMACH BITTERS, and see that each bottle has the words "Dr. J. Hostetter's Stomach Bitters" blown on the side of the bottle, and stamped on the metallic cap covering the cork, and observe that our autograph signature is on the label.

☞ **Prepared and sold by HOSTETTER & SMITH, Pittsburgh, Pa., and sold by all druggists, grocers, and dealers generally throughout the United States, Canada, South America, and Germany.**

MOFFAT'S
Vegetable Life Medicines.

A mild yet effectual medicine, composed of the best material known to medical science, for the cleansing of the alimentary canal and relieving the springs and avenues of life of all morbid obstructions and impurities, must be a public blessing and a domestic and individual protection and safeguard, in proportion as it becomes known. Such a medicine the families of the United States have long had in MOFFAT'S CELEBRATED LIFE PILLS AND PHŒNIX BITTERS, and the good they have done is inestimable. They have won their high fame and firmly established character by their virtues alone, without the aid of the usual arts of notority or impudent experiment on the faith of the credulous.

In all general derangments of the digestive and alimentary functions, as well as in a vast variety of acute and chronic diseases, their effects are prompt and complete as to excite astonishment.

In rheumatism, settled pain in the organs and limbs, costiveness, piles, liver complaints, jaundice, nervous and bilious attacks, headaches, fever and ague, eruptive diseases, bad aspect of the complexion, indigestion and flatulency, cholics, affections of the bladder and kidneys, dropsy, asthma and bronchitis, rheumatic colds and sore throats, and indeed in almost every conceivable kind of ill health they are invaluable, and will afford certain, and most generally permanent relief. They require neither confinement nor change of diet—they neither prostrate the strength nor give pain—and a more delightful and effectual medicine cannot be procured either for individuals or families.

The proprietor has received for many years and is continually receiving the most fervent and grateful testimonials of their value. Prepared and sold by DR. WM. B. MOFFAT, 335 Broadway, and also by the agents.
